

To Our Valued Patient,

We are writing to inform you about a recent change for Dr. Hemacha's practice. As of January 1, 2021, our GI practice changed its name to Connecticut GI, PC ("CTGI"), one of the foremost gastroenterology practices in Connecticut and beyond. This association enhances our goal of providing quality healthcare and broader access to a greater variety of gastroenterological services to you.

There will be no interruption in your care as a result of this change, and appointments can still be made through the same office number (860) 872-5426. Your gastroenterology providers (Ali Hemacha MD and Stephanie Fontanella APRN) will continue to serve you. We remain in the same office at 428 Hartford Turnpike Unit 207 in Vernon and are available at the same hours as we have in the past.

Our association with CTGI will allow us to continue the successful relationships we have shared with you over the years. As part of the process, we will need to transfer your medical records from ECHN to Connecticut GI, PC. This transfer will allow us to have continued access to your medical records. Thank you for your trust and support as we continue to provide comprehensive and compassionate care for you and your families.

Sincerely,

Ali Hemacha, MD and Staff.
